About the accommodation, transportation and Surroundings:

The University Campus (San Vicente del Raspeig Campus) is just 10 minutes from the Airport of Alicante. The best and faster way to arrive at the Villa Universitaria is by taxi although there are buses going and coming from the Airport.

Villa Universitaria is the newest students' and staff's accommodation place within the Campus with all the services that you may need around: <http://www.villauniversitaria.com/es/inicio/> including swimming pool, which is much appreciated at this time of the year in Alicante. **The contact person is:** Pedro López Sánchez

Moreover, it will take you 4 minutes walking from the Villa Universitaria to the Faculty of Health Sciences where most of the classes will take place.

Around the Villa Universitaria there is a lot of students' life with lots of different restaurants, tapas bars, coffe shops; all of them with special prices for students, what means "affordable".

To move to the Hospitals where some of the sessions will take place, the TRAM is the best option as well as the Public Bus Line from the University of Alicante:

- 3rd Day in the morning: to arrive at the Hospital General there is a direct TRAM journey from the Villa Universitaria that takes 10 minutes.
- 2nd Day in the afternoon: to arrive at the Clinica Vistahermosa in Alicante there is one Bus (number: 24) to the get to the downtown and in downtown take number 23 to get to Vistahermosa Hospital. It takes no more than 30 minutes both journeys.

WILL TRY TO DO OUR BEST SO THAT YOU ENJOY YOUR STAY!!
